

Cleo Christine Mianggi Sibungkil

+6016-5847260 | cleocm1806@gmail.com | Kota Kinabalu, Sabah

Computer Science graduate with practical experience contributing to real-world government systems, including feature development, UI redesign, and system improvements. Adept at bridging technical functionality with user experience, delivering solutions that enhance usability and efficiency. Continuously building expertise in modern web development and interface design.

EXPERIENCE

DIGITAL APPRENTICE (SCENIC)

Jabatan Perkhidmatan Komputer Negeri (JPKN) | Kota Kinabalu, Sabah

AUGUST 2025 – MAY 2026

- Collaborate within a development team to maintain and enhance government web systems.
- Developed dashboards that improved data visibility for internal users.
- Redesigned and restructured legacy system interfaces across multiple modules, improving navigation flow, consistency, and overall usability.
- Troubleshoot and resolve user-reported issues to ensure reliable system performance.
- Prepare user manuals and technical documentation to support usability and knowledge transfer.
- Provide support for ad hoc tasks and additional responsibilities as needed, contributing to overall team efficiency.

INTERN

Jabatan Perkhidmatan Komputer Negeri (JPKN) | Kota Kinabalu, Sabah

SEPTEMBER 2024 – JANUARY 2025

- Contributed to the frontend development of *BayuData*, a public-facing government open data portal, by designing responsive and user-friendly interfaces and improving overall usability.

PROJECTS

E-SOKONGWPSC

Permit and Licensing System | Ministry of Tourism, Culture and Environment (KEPKAS)

- Redesigned user interfaces and enhanced backend functionality.
- Revamped landing page and authentication flows, creating a more intuitive user experience.
- Introduced clearer informational elements, resolved client-reported issues, and improved code readability.
- Tech: PHP, MySQL, Bootstrap, Datatables, JavaScript

LAIDUP

Permit and Licensing System | Jabatan Pelabuhan dan Dermaga Sabah (JPDS)

- Redesigned system interfaces for admin, staff, and public users, improving usability, navigation flow, and visual consistency.
- Developed reusable page templates, standardized UI components, and responsive layouts across the system.
- Implemented draft-saving, dynamic payment calculations, and enhanced payment workflows.
- Developed and maintained CRUD modules, database functionality, and report generation features.
- Tech: PHP, MySQL, Bootstrap, DataTables, JavaScript

EDUCATION

BACHELOR OF COMPUTER SCIENCE WITH HONOURS (SOFTWARE TECHNOLOGY)

Universiti Kebangsaan Malaysia (UKM), Bangi, Selangor

OCT 2021 – AUG 2025

- CGPA: 3.6
- Member of Mobile Application Development (MAD) Club
- Final Year Project (2023–2024): Researched and developed a medicine reminder Android app for the elderly using Android Studio

FOUNDATION IN SCIENCE

Universiti Teknologi MARA (UiTM), Dengkil, Selangor

JULY 2020 – MAY 2021

SKILLS & LANGUAGES

TECHNICAL SKILLS

- Programming:** Java, Python, C, SQL
- Web Development:** PHP (Core PHP, Laravel), HTML, CSS, JavaScript, Bootstrap
- Software & Tools:** Figma, Android Studio, Canva, Visual Studio Code, phpMyAdmin, Git/GitHub
- Other Skills:** UI/UX Design, Debugging

SOFT SKILLS

Problem-Solving • Critical Thinking • Communication • Teamwork

LANGUAGES

English (Fluent) • Malay (Fluent) • Mandarin (Conversational)

CERTIFICATIONS

GOOGLE UX DESIGN CERTIFICATE

Google | 2026

Credential ID: 16VGGF0DWCYX
